## RESPIRATOR INSTRUCTION AND QUALITATIVE FIT TESTING CERTIFICATE OF ATTENDANCE

\_\_\_\_\_ of \_\_\_\_\_  
print name company  
has attended and successfully completed a Respirator Instruction Course and  
Qualitative Fit-Test conducted on \_\_\_\_\_  
date

The Course included instruction in use, cleaning and inspection of respiratory protection equipment including the following:

- Respirator characteristics, capabilities and limitations of various types.
- Respirator Protection Factors (P.F.) and respirator fit.
- Proper selection, inspection, donning, use, maintenance, cleaning and storage procedures.
- Methods for field testing the seal of the facepiece (Positive and Negative Pressure Tests).
- Respirator selection for Asbestos and other hazards--i.e., organic vapor or ammonia atmospheric contaminants.
- Use of proper respirator type for the hazard to which the worker is exposed, e.g., air-purifying, atmosphere supplying and combination (SAR & HEPA Filter).

### Respirators Fit Tested:

Manufacturer	Model #	Type	Size
1. _____	_____	_____	_____
NIOSH Approval No. TC - .....			
2. _____	_____	_____	_____
NIOSH Approval No. TC - .....
